Gentlemen:

Subject: Inspection No. 79-09

This refers to your letter dated October 10, 1979, in response to our letter dated September 20, 1979.

Based on a telephone conversation between Mr. T. Stetka of this office, yourself and Mr. R. Pasternack on October 18, 1979, it is our understanding that the RES Technician inspections discussed in your response to Item B will be implemented in accordance with a Radiological and Environment Services Department Standing Order. This Standing Order will specify the type and frequency of these inspection patrols. In addition, a Security and Safety Department Standing Order will be issued that will direct the in-plant security guard to conduct checks of radiological control doors during each watch standing shift. This procedure will be implemented by November 30, 1979.

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a subsequent inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

Boyce H. Grier
Director
