POOR ORIGINAL

JOHN F. DOHERTY'S MOTION TO COMPEL ANSWERS FROM STAFF TO INTERROGATORIES DATED MAY 25, 1979, JULY 17, 1979, JULY 31, 1979, and JUNE 6, 1979.

John F. Doherty, Intervenor in the above proceedings requests the Board issue an order requiring Staff to reply to the Interrogatories listed above.

*****

Background to this request is as follows. Intervenor was admitted as a party in April, 1979. Staff has replied to one set of Interrogatories. Intervenor granted Staff additional time on the May 25, 1979 set, which consisted of 6 questions, due to staff personnel shortages caused by the Three Mile Island event. A subsequent phone call to Staff requesting answers to the interrogatories listed above yielded assurances they would be answered. While this Intervenor feels he has extended great latitude to Staff on this matter, it is simply a handicap to not know the answers to some of these questions. This Intervenor is reluctant to push Staff this way, but the proceedings are now moving again after being side tracked and these answers are needed in order to not delay proceedings.

Further, Staff has been extremely co-operative in every respect save this. At risk of self-repeating, Intervnor preys the Board issue an order compelling these answers, in order to expedite these proceedings.
