Enclosed, on behalf of the BWR Owners Group are analyses of BWR performance under extremely degraded cooling conditions, in response to Question 13 of Reference (1). Sixty (60) copies of the analyses have been enclosed for use by your Staff. The analysis scope is consistent with our agreement as documented in Reference (2). The enclosed analysis results are preceded by a brief explanation of the cases which were evaluated. In addition, per Reference (3), a more detailed description of the analyses will be provided by December 28, 1979.
