Dear Mr. Keppler:

In our letter dated October 30, 1979 regarding the remainder of inspections relative to Bulletin 79-14, we had informed you that we would take additional time to determine our position and report to you by November 15, 1979.

As a result of conversations with members of your staff and your letter which we received on November 9, 1979, we agree to resume the inspection to include normally inaccessible piping during our first quarter 1980 refueling shutdown.

Very truly yours,

*Larry D. Root*
