Nuclear Regulatory Commission
Division of Waste Management
Washington, DC 20555

Attention: Steve Ostrach

Reference: 44 FR October 25, 1979, p. 61372.

In relation to your efforts to measure your degree of confidence that radioactive wastes produced by nuclear facilities will be safely disposed, I submit a copy of my paper presented at the Washington, DC meeting of the American Chemical Society, September 11, 1979.

The last paragraph of this paper states my views that the technology for making a decision on a waste management system is available.

Sincerely,
Orville F. Hill
