Gentlemen:

This refers to the QA program inspection conducted by Mr. Ross L. Brown of this office on October 15-17, 1979, of your facility at Chicago, Illinois and to the discussions of our findings with you and others at the conclusion of the inspection.

Areas examined during the QA Program inspection and our findings are discussed in the enclosed report. Within these areas, the inspection consisted of an examination of procedures and representative records, interviews with personnel, and observations by the inspector.

During this inspection it was found that the implementation of your QA Program failed to meet certain commitments in your Topical Report No. FCTPN-78. The specific findings and references to the pertinent requirements are identified in the enclosures to this letter. These identified deviations appear to represent a number of similar discrepancies in the implementation of the program described in your topical report, therefore it will be necessary that you review your procedures, instructions and records to assure compliance with the commitments in your topical report.

Please provide us within thirty (30) days a written statement containing, (1) a description of steps that have been or will be taken to correct these items, (2) a description of steps that have been or will be taken to prevent recurrence, and (3) the dates your corrective actions and preventive measures were or will be completed.

In accordance with Section 2.790 of the Commission's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter with enclosure and your reply together with the enclosed inspection report will be placed in the Commission's Public Document Room.
