Dear Mr. Rowden,

My name is Wendy M. Koch, and I am very interested in the question of whether or not nuclear energy is our best alternative for the future. I am presently a junior at Bernards High School where I am going to write a large article about nuclear energy for my school newspaper. Many of the students are ignorant or apathetic about this issue, and I would like to, at least, make them aware. Therefore, I would appreciate all possible information about nuclear energy. An explanation about what happened at Three Mile Island and motions for future safety precautions would also be desirable.

Thank you.

Sincerely,

Wendy M. Koch
