Inspection Summary:

1630 247

Inspection Conducted July 9-13, 1979 (Report No. 50-29/79-07)

Areas Inspected: Routine, unannounced physical security inspection of licensee's approved security plan. Specific areas included: security plan, security program audit, security organization, physical barriers (PA/VA), lighting, access control, alarm stations, detection aids, assessment aids, communications, testing and maintenance, compensatory measures, power supply, response, locks, keys and combinations and records and reports. The inspection was initiated during off shift hours and involved 70 inspector-hours onsite by two regional based inspectors, 8 inspection hours were accomplished during offshift periods.

Results: Of the sixteen areas inspected, no apparent items of noncompliance were identified in fourteen areas. Two apparent items were identified in two areas (Infraction, Communications, Paragraph 17; Deficiency, Records and Reports, Paragraph 23).
