Export License Application for 191 Kg U dated Nov. 26, 1979
TN Ref: 79-231/01 (MISC-308)

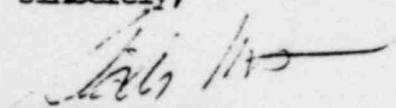

Dear Mr. Moore:

This is to advise you that the physical form of the material listed on our export license application dated November 26, 1979 (UF6 and Uranium Metal) should be corrected to reflect a total of 191 Kg U as Uranium Metal.

Also, please note that the A.E.C.L. has requested delivery of the material listed on our license XSNM-1355 in early November 1980.

Thanking you in advance for your help and cooperation.

Sincerely,

Vicki Matson
Assistant Manager - Washington Operations
