# NUCLEAR DYNAMICS

ALBERT F. STOICK

VICE PRESIDENT, URANIUM EXPLORATION  
MANAGER, NUBETH JOINT VENTURE

November 26, 1979

Mr. R. A. Scarano, Chief  
Uranium Recovery Licensing Branch  
Division of Waste Management  
Office of Nuclear Material Safety and Safeguards  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Subject: Source Material License No. SUA-1331, Sundance  
Project, Crook County, Wyoming, Docket No. 40-8663

Attention: R. Cooperstein

Gentlemen:

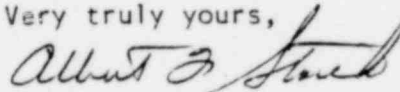

Pursuant to your letter of April 14, 1978, authorizing our Source Material License No. SUA-1331, we are enclosing ten (10) copies of this letter as it relates to the Sixth Quarterly Report as required by License Condition No. 29.

As a result of the submittal on or about October 19, 1979, of the Restoration Summary Report on In Situ Mining Test Site, Sundance Project, Crook County, Wyoming, and the current stabilization period, all of the quarterly data was included in that report. Please refer to that report for the current quarterly report data.

We are forwarding copies of this letter to the Wyoming Department of Environmental Quality offices in Cheyenne and Sheridan, Wyoming, and also a copy is being mailed to the Region IV, Office of Inspection and Enforcement, U. S. Nuclear Regulatory Commission, Arlington, Texas.

Thank you.

Very truly yours,

Albert F. Stoick  
Manager, Nubeth Joint Venture
