Mr. Carlton Kammerer
Director, Office of Congressional Affairs
Nuclear Regulatory Commission
1717 H Street, N.W.
Washington, D.C. 20505

Dear Mr. Kammerer:

I am enclosing for your information a copy of a letter I have recently received from Mr. Bill Peters of Russellville, Arkansas regarding a concern he has expressed about a possible decision the Nuclear Regulatory Commission may make to issue a license for the construction of offshore nuclear power plants.

As you will note from Mr. Peters' letter he believes such structures would be more dangerous than land based reactors. I would appreciate it if you would review these comments, and advise me of any actions or decisions which may be pertinent to this problem. Your reply will hopefully enable me to become more familiar with this subject, and provide my constituent with an informed response.

Sincerely,

David Pryor
