Docket No. 50-336

Office of Nuclear Reactor Regulation
Attn: Mr. H. R. Denton, Director
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

References: (1) W. G. Counsil letter to J. Hendrie dated November 30, 1979.
(2) W. G. Counsil letter to H. R. Denton dated December 6, 1979.
(3) H. R. Denton letter to All Operating Nuclear Power Plants dated October 30, 1979.

Gentlemen:

Millstone Nuclear Power Station, Unit No. 2
Automatic Initiation of Auxiliary Feedwater

In Reference (1), Northeast Nuclear Energy Company (NNECO) provided its position with respect to the NRC requirement to automatically initiate the auxiliary feedwater system at Millstone Unit No. 2. In Reference (2), a description of the design, including a point-by-point discussion of compliance with each of the clarification items of Reference (3), was provided to facilitate Staff review.

During subsequent discussions, the Staff requested still further details regarding the design. Accordingly, enclosed are copies of drawings which are intended to illustrate how compliance with the clarification items of Reference (3) was achieved. A listing of the affected drawings is attached.

We trust the attached information is sufficient to resolve your remaining questions.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY

W. G. Counsil
Vice President
