October 10, 1979

Glen D. Brown
Nuclear Regulatory Commission
611 Ryan Plaza Drive, Suite 1000
Arlington, Texas 76012

Dear Mr. Brown:

In response to your notice of violation dated October 4, 1979 we are herein providing the information you requested.

- 1). The licensed material will no longer be used except in the physical presence of an authorized individual.
- 2). Steps are now being taken to have changes made in the license so that it will allow for personnel changes.
- 3). Effective this date full compliance has been achieved since it will only be used in the presence of authorized individuals. Just how long it will take to get the license changed is not known and depends totally on the willingness of your agency to make such changes. We will make every reasonable effort to see that this is done as rapidly as possible since our business requires that we start wide use of it again in the spring.

If you need more information please send future communication to the above address. Thank you.

Sincerely,

Merrill Sanders
Director
