November 30, 1979

Mr. Boyce H. Grier, Director  
U.S. Nuclear Regulatory Commission  
Region 1  
631 Park Avenue  
King of Prussia, PA 19406

Dear Mr. Grier:

In reply to your IE Bulletin 79-19, "Packaging of Low-Level Radioactive Waste for Transport and Burial" we present answers to the three questions in Item 9 as follows:

1. During all of 1978 and the first six months of 1979 we made no low-level radioactive waste shipments.
2. No low-level radioactive wastes were shipped.
3. For the year 1978 and the first six months of 1979, a total of less than 0.1 millicurie of liquid radioactive waste was generated. These small quantities were flushed down the drain in accordance with our license regulations.

Sincerely,

Richard Sasin, Dean  
Division of Science

William J. Yurkiewicz  
Radiation Safety Officer
