KING OF PRUSSIA, PENNSYLVANIA 19406

TERA

OCT 24 1978

Docket No. 30-7622

New England Analytical and Testing
Laboratory
ATTN: Mr. L. O'Brien
2 Shady Oak Lane
Natick, Massachusetts 01760

License No: 20-14038-01
Expiration Date: May 31, 1976

Gentlemen:

SUBJECT: NOTICE OF EXPIRED LICENSE

This refers to the telephone discussion between Mr. J. Davis of this office and yourself on October 16, 1978.

NRC records show that the Byproduct Material License identified above has expired and no renewal application has been filed in accordance with Section 30.37 of Title 10, Code of Federal Regulations, Part 30.

From our discussion with you we learned that you still possess material which requires a specific NRC license. Your possession of that material without a valid, specific license is a violation of Section 30.3, 10 CFR Part 30.

If you want to continue your program, you must immediately submit the enclosed NRC Form 313, "Application for Byproduct Materials License" to the Radioisotopes Licensing Branch, Office of Nuclear Materials Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C., 20555. A copy of the letter forwarding the application to the licensing branch (but not the application) should be sent to Region I, U.S. Nuclear Regulatory Commission, 631 Park Avenue, King of Prussia, Pennsylvania, 19406, ATTN: Mr. R. O. McClintock, Chief, Materials Radiological Protection Section, Fuel Facility and Materials Safety Branch.

Also, you must place the radioactive material on hand in secure storage until such time as you acquire a valid license; no other use of the material on hand or purchase of additional byproduct material is authorized.

2176 279

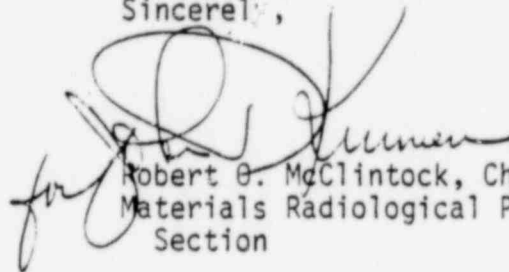

7912280 673

OCT 24 1978

Since your present license has expired, your application for renewal will be processed as a request for a new license. Accordingly, you must determine if your program is subject to a license fee as required by Section 170.31, 10 CFR Part 170 and, if one is required, submit the appropriate fee along with the application.

We request that you give prompt attention to these matters.

Sincerely,

A handwritten signature in cursive script, appearing to read "for Robert G. McClintock".

Robert G. McClintock, Chief
Materials Radiological Protection
Section
