Docket No. 03007398

NOV 27 1978

Crawford County Civil Defense  
Court House  
ATTN: Mr. Dennis Blank, Director  
Meadville, Pa. 16335

License No: 37-11695-01

Expiration Date: May 31, 1978

Gentlemen:

SUBJECT: NOTICE OF EXPIRED LICENSE

This refers to the telephone discussion between Mr. B. O'Neill of this office and Mr. D. Blank of your organization on November 21, 1978.

NRC records show that the Byproduct Material License identified above has expired and no renewal application has been filed in accordance with Section 30.37 of Title 10, Code of Federal Regulations, Part 30.

From our discussion with your representative we learned that you do not have any byproduct material in your possession. Therefore, you must take the following actions:

Prepare a statement which explains the method of disposal of the materials--what material was involved, how it was disposed of or to whom it was shipped, and when this was done.

A copy of the statement shall be sent, within fifteen (15) days of the receipt of this letter, to Region I, U.S. Nuclear Regulatory Commission, 631 Park Avenue, King of Prussia, Pennsylvania, 19406, ATTN: Mr. R. O. McClintock, Chief, Materials Radiological Protection Section, Fuel Facility and Materials Safety Branch.

Also, if the activities conducted under the expired license were subject to the reporting requirements of 10 CFR 20.407, you must submit the annual report required by 20.408 for individuals engaged in activities under the expired license. Those reports must be submitted to the Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C., 20555, ATTN: Mr. J. B. Winningham.

If you want to reactivate your program, you must submit the enclosed NRC Form 313, "Application for Byproduct Materials License", to the Radioisotopes Licensing Branch, Office of Nuclear Materials Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C., 20555. A copy of the letter forwarding the application to the licensing branch

2177 539

7912810075

(but not the application) should be sent to Region I, U.S. Nuclear Regulatory Commission, 631 Park Avenue, King of Prussia, Pennsylvania, 19406, ATTN: Mr. R. O. McClintock, Chief, Materials Radiological Protection Section, Fuel Facility and Materials Safety Branch.

Since your present license has expired, your application for renewal will be processed as a request for a new license. Accordingly, you must determine if your program is subject to a license fee under Section 170.31 of 10 CFR Part 170 and, if one is required, you must submit the appropriate fee along with the application.

We request that you give prompt attention to these matters.

Sincerely,

Robert O. McClintock, Chief  
Materials Radiological Protection  
Section
