Gentlemen:

Subject: Inspection 79-01

This refers to your letter dated October 1, 1979, in response to our letter dated September 13, 1979.

Thank you for informing us of the corrective and preventive actions you documented in response to our correspondence. However, your letter has been reviewed and additional information is found to be needed.

In your response, you failed to describe your management audit program as requested on paragraph 1 on page 2 of our September 13, 1979 letter. Your letter addresses the specific cases but fails to describe the method(s) you will use to assure that all radiological safety procedures stipulated in your Radiation Safety Manual will be followed in the future. These methods should include, but not necessarily be limited to, periodic audits of your radiation safety program by a knowledgeable individual with the results reported to, and acted upon, by management.

Please respond to this office within seven (7) days of receipt of this letter a written statement containing the requested information.

Sincerely,

Robert C. McClintock, Chief
