Attention: Mr. James G. Keppler
Director

Reference: NRC License 21-14151-01

Dear Mr. Keppler:

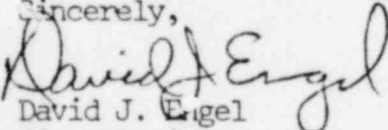

In reference to your letter of 27 November 1979 and IE Bulletin No. 79-19, "Packaging of Low-Level Radioactive Waste for Transport and Burial,".

In checking our records we have found that our last usage on the license was in early 1977. At this time we have no plans to deal with any additional radioactive material and at this time would request that our license be cancelled.

Therefore, we do not feel it is necessary to develop a procedure for handling radioactive waste as required in the above mentioned bulletin. At this time we would respectively request that our license be cancelled, therefore preventing us from being in violation of the requirement of low level radioactive waste disposal.

If you have any questions pertaining to this matter, please do not hesitate to contact us.

In regards to Item 9 of the bulletin, we have not dealt with any radioactive material since early 1977, therefore we would have no radioactive shipment to report.

Sincerely,

David J. Engel
Vice President
