Re: IE Bulletin No. 79-19

U.S. Nuclear  
Regulatory Commission  
Region II  
101 Marietta St, N.W., Suite 3100  
Atlanta, GA 30303

Dear Mr. O'Rielly:

I have recently been named Chief Radiation Protection Officer for Pyrotronics and Pyr-A-Larm and as a result of this new responsibility, IE Bulletin 79-19 was brought to my attention.

We have not responded to your August 10 request for information because we ceased all manufacturing operations in Dublin on March 8, 1979. (Further, our manufacturing operations did not generate radioactive waste material that would require a response.) Attached is a copy of our notification to the N.R.C. that indicates our closing of the Dublin Plant.

If you require any further information I will be pleased to provide it.

Yours truly,

H.D. Salkeld  
Director, Quality Assurance
