Gentlemen:

Subject: Inspection 30-0800/79-01

This refers to your letter dated November 2, 1979, in response to our letter dated October 12, 1979.

Thank you for informing us of the actions documented in your letter. From the telephone conversation between Ms. M. Campbell of this office and yourself on November 8, 1979, we understand that you intend to renew and amend your NRC License No. 20-13956-01 to authorize possession of both your Hydrogen-3 source, which you are now holding in secure storage until disposal can be arranged, and also your Nickel-63 source of which you are considering purchase. Please confirm our understanding in your response to this letter. These actions will be examined during a subsequent inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

Robert O. McClintock, Chief  
Materials Radiological Protection  
Section, FF&MS Branch
