

LAWRENCE LIVERMORE LABORATORY

SM79-310

A40

October 23, 1979

Mr. Goutam Bagchi
Chief, Structural Engineering Research Branch
Division of Reactor Safety Research
U.S. Nuclear Regulatory Commission
Washington DC 20555

Subject: October Draft of Task 10/TAP A-40 Report

Dear Goutam:

Enclosed for your review is the latest draft of the Task 10/TAP A-40 project. This draft reflects the most recent comments and recommendations of the Livermore core members and consultants. However, none of the core members or consultants have had a chance to review this draft and as such there will most likely be additional changes following their review and the review by the NRC. Additionally, the draft does not contain the final reports of consultants as appendices as not all of these reports have been received at this time.

Please let me know of any comments you may have regarding this draft by no later than November 9th.

If you have any questions regarding this matter, please feel free to call me.

Sincerely,

David W. Coats, Jr.
Project Engineer Task 10/TAP A-40
Nuclear Test Engineering Group
