DATE: 22 October 1979

REPLY TO
ATTN OF: J. R. Hawthorne, NRL, Code 6390

SUBJECT: Report for Task C of Interagency Agreement No. NRC-03-79-148

TO: R. E. Johnson, NRC, DOR

1. Task C of the subject agreement is directed to the prediction of radiation damage to steels forming reactor components well removed from the fuel core. The enclosed report addresses radiation effects to reactor vessel support structures.
2. If you have any questions on the analysis, please give me a call.
