Gentlemen:

Attached to this letter is a list of Requests for Design Changes (RDCs) associated with the modification program described in the Report on Design Modifications for the Trojan Control Building (PGE-1020). These items are modifications involving piping supports necessary to qualify piping systems for response spectra developed in accordance with PGE-1020, Appendix B. The items on this list will not individually or collectively with other modifications reduce the shear capacity of any major shear wall by greater than 1 percent. Nor do the items involve weight additions which may result in an increase of greater than 1 percent of the calculated lateral forces in any major shear wall.

The Licensee will continue to keep the Board informed of activities at Trojan as described at the March 30, 1979 Prehearing Conference (Tr. 3204-05).

Sincerely,

Ronald W. Johnson  
Corporate Attorney  
Portland General Electric Company

ATTACHMENT

Following is the list of Request for Design Change (RDC) work items for which field work may be performed within the next few weeks.

The relationship of the work with the Control, Auxiliary and Fuel Building structures is briefly summarized below:

<u>RDC No.</u>	<u>Modification</u>	<u>Relationship</u>
79-028	<u>Job No. 26:</u> Modification of existing restraint for Containment spray piping, GCB-9-1 (H 21).	The existing floor mounted stanchion pipe support for the 10 in. pipe at E1 55 ft in the Auxiliary Building will be modified with additional steel and welding.
	<u>Job No. 46:</u> Modification of existing restraint for residual heat removal piping, RH-601R-7-1 (SR 63).	The existing floor mounted stanchion pipe support for the 12 in. pipe at E1 55 ft in the Auxiliary Building will be modified with additional steel and welding.
