PROPOSED RULE

*PR - min review
Reg Guide*

Secretary of the Commission
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

ATTENTION: Docketing and Service Branch

Subject: Draft Regulatory Guide - Qualification
Test for Cable Penetration Fire Stops
for Use in Nuclear Power Plants

Dear Sir:

We have reviewed the above referenced draft regulatory guide and have the following comment.

Item C-3 on page 3 - This paragraph is not clear. Does this paragraph require a prototype test of a penetration in which a cable has been added which requires punching a hole in the penetration and then repairing it? Or does modification mean something like adding a pipe when it was tested for cable?

We appreciate the opportunity to offer our comments.

Very truly yours,

[Handwritten signature]
Mark B. Whitaker, Jr.
Manager, Nuclear Licensing
