MEMORANDUM FOR: Edson G. Case, Chairman
Technical Activities Steering Committee (TASC)

FROM: Harold R. Denton, Director
Division of Site Safety and Environmental
Analysis, NRR

SUBJECT: TASK ACTION PLAN -- HEALTH EFFECTS AND LIFE-
SHORTENING FROM THE URANIUM AND COAL FUEL CYCLES

Enclosed is a Task Action Plan covering staff effort and contract effort at ANL that is currently being supported on a technical assistance contract and that is planned for support in FY 78 and beyond by confirmatory research funds. We request that the subject plan be reviewed by the TASC and assigned a priority category. We believe the work falls under the definition of a category B activity. This activity has been separated out of Task A-20.
