Mr. C. M. Trammell
Operating Reactors Branch #1
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Charles:

In accordance with our discussions of January 28, 1979 with Hank George, we are providing the attached simplified schematic drawing showing how the Trojan Auxiliary Feedwater System indication devices will be modified. If you have any additional questions concerning this subject or desire this information docketed, please contact me.

Sincerely,

G. A. Zimmerman
Supervisor, Licensing Section
