(SEE SECY-79-561) (OPEN TO PUBLIC ATTENDANCE)

The Commission was briefed by the staff on the use of the EPICOR II system for processing TMI-2 contaminated water. The Commission by a vote of 3-0* directed that the transcript of this meeting and that of the October 4, 1979 meeting on this subject be appended to the Environmental Assessment of October 3, 1979, and made part of the administrative record in the event the Commission later issues a negative environmental declaration. (OGC/SECY/NRR) (SECY Suspense: As necessary)

In addition, the Commission noted that a closed meeting to discuss the legal aspects of this matter was scheduled to immediately follow their discussion.

(Subsequently, this meeting was held at 3:00 p.m., Wednesday, October 10, 1979).
