amend 1

U.S. Nuclear Regulatory Commission
Office of International Programs
Export/Import and International Safeguards
Washington, D.C. 20555

Attention: Mr. R.N. Moore, Senior Licensing Officer

Subject : NRC License No. XSNM01331 (8.5 g Plutonium)
NRC License No. XU08421 (100 g Natural Uranium)

Dear Mr. Moore:

Regarding the subject mentioned licenses which are due to expire February 1, 1980, we would like to propose that the validity of both be extended for another 6 (six) months.

The reason for our requested extension is the delay of PNC, our final customer in Japan, to provide adequate containers for the material as well as some delay concerning the availability of the materials by NBS.

Your immediate action to the above will be greatly appreciated.

With best seasonal greetings,

NISSHO-IWAI AMERICAN CORPORATION
