P.O. Box 425
Great Neck, New York 11022

Dear Mr. Rabinowitz:

Pursuant to your request, we are returning your license application (XCOM0325) for the export of a traversing incore probe system to India for use at the Tarapur Power Station as it appears unlikely that the NRC will be able to issue an export license in the near future.

Sincerely,

A handwritten signature in black ink, appearing to read "Marvin R. Peterson".
