Subject: Renewal Application

Discussion: Bryan Harnett is the RSO associated with the license. This phone conversation was held to discuss the licensee's renewal application. The licensee had submitted a renewal application utilizing outdated NUREG guidance and commitments. The licensee stated they would prefer to resubmit information in accordance with the updated NUREG as opposed to respond in writing to individual RAI requests. Additionally, we discussed the locations of use on the license and whether both were still required. The licensee stated that he would submit a request in the renewal application to remove the old location from the license.

Action Required: Receive and review updated renewal application, finish processing of license renewal
