

MEMO: NLI-QA-3755
DATE: 7/31/2019
TO: United States Nuclear Regulatory Commission
ATTN: Document Control Desk, Washington, DC 20555-0001

Reference: Docket Number 99901471
NRC Inspection Report No: 99901471/2019-201

Subject: Request for Extension to Respond to the Referenced NRC Inspection Report dated July, 3, 2019.

AZZ Nuclear Logistics, (NLI) acknowledges receipt of NRC Inspection Report Number 99901471/2019-201, Notice of Nonconformance dated July 3, 2019, Non-Conformance 99901471/2019-201-01 and Non-Conformance 99901471/2016-201-04 that remained partially open. NLI takes any NON seriously; we are committed to taking the appropriate actions to investigate and resolve these issues in a timely manner.

NLI requests a sixty day (60) extension beyond the thirty (30) day response due to the time needed to continue to perform a comprehensive evaluation, extent of condition and describe the actions that are being taken. This would allow for the response to be completed and submitted by September 30, 2019.

If any additional information is requested please contact myself at tracybolt@azz.com
