In the Matter of Metropolitan Edison Company, et al.
(Three Mile Island Nuclear Station, Unit 2)
Docket No. 50-320

Gentlemen:

Concerns have been raised about the adequacy of neutron dosimetry now being used at nuclear power plants. The subject of neutron dosimetry has been discussed with the Advisory Committee on Reactor Safeguards and the Commission. The enclosed information which is being provided to Licensing Boards and Appeal Boards in pending cases may have relevance to questions relating to occupational exposure in commercial nuclear reactor power facilities.
