725 Long Pond Rd  
Plymouth, MA 02360  
August 2, 2019

Margaret Doane  
Executive Director off Operations  
Nuclear Regulatory Commission,  
Washington, DC 20555-0001

Dear Ms Doane

When deciding the Entergy/Holtech commitment, please consider who will be inspecting and replacing spent fuel casks that will have aged-out over the many hundreds of years to come. The chances that they will ever be removed from Plymouth are next to none.

Sincerely,

Edward Russell  
Retired member of the MA Bar
