Mr. Donald E. Pack, Acting Director  
Air Resources Laboratory  
Environmental Science Services  
Administration  
8060 - 13th Street  
Silver Spring, Maryland 20910

Dear Mr. Pack:

Jersey Central Power & Light Company and Metropolitan Edison Company have jointly filed Amendment No. 6 to facility license application for the previously designated Oyster Creek Unit 2 nuclear reactor. The applicants have selected as a new site for the reactor the Three Mile Island Nuclear Station in Dauphin County, Pennsylvania, and have re-designated the reactor as the Three Mile Island Nuclear Station Unit 2.

Volumes 1 through 4 of the Preliminary Safety Analysis Report (PSAR) for the Three Mile Island Nuclear Station Unit 2 are enclosed. This PSAR contains all information previously furnished in the Oyster Creek Unit 2 PSAR and amendments thereto. In addition, new information is provided that concerns site-related changes as identified in the index.

Because the site features were reviewed previously for Metropolitan Edison's Three Mile Island Unit 1 and since the proposed Unit 2 is similar to Unit 1 now under construction, it may be possible in certain cases to merely reference the applicability of your previous report on Unit 1. We would appreciate your prompt review and comments.

Sincerely yours,

Original signed by:  
Roger S. Boyd

Roger S. Boyd, Assistant Director  
for Reactor Projects  
Division of Reactor Licensing
