## Enclosure A

## New Haven Nuclear Station Project No. P-657

- It is highly desirable that experienced individuals participate
  (13.2.1.1.3)

  in courses utilizing a nuclear plant simulator similar to the
  facility for which the individual will be seeking a license.

  The applicant should provide this training for all candidates
  for an SRO or RO license under categories 2 and 3 of Section
  13.2.1.1.3.
- 441.2 The applicant should provide a commitment to conduct an initial (13.2) fire protection training program, including:
  - a. Periodic drills during construction.
  - b. Provisions for indoctrination of construction personnel, as necessary.

The initial training shall be completed prior to receipt of fuel at the site.

The applicant should provide a detailed description of the (13.2) training program for the individual(s) responsible for the formulation and assurance of the implementation of the fire protection program. The training program should address those items listed in Section A.1 of Appendix A to Branch Technical Position ASB 9.5-1, Guidelines for Fire Protection for Nuclear Power Plants.

442.1 The applicant should commit to the conduct of all safety-related (13.5) operations by detailed written and approved procedures.

The applicant should commit to provide written and approved (13.5)

fire protection procedures and include them on the preliminary schedule for completion.
