Docket 50-320

May 17, 1979

MEMORANDUM FOR: All RES Staff

FROM: R. M. Scroggins, Director
Administration & Resource Control Staff

SUBJECT: RES RECORDS - THREE MILE ISLAND UNIT 2 ACCIDENT
(DOCKET 50-320)

On April 27, 1979, this office transmitted to the Chief, Freedom of Information and Privacy Branch, all RES originated records related to the Three Mile Island Unit 2 accident, that were then in our possession.

The purpose of this memorandum is to remind you that we are under a continuing requirement to submit to the FOIA office all RES generated documents relating to TMI. Therefore, I would appreciate receiving on each Friday, all such documents generated during the week (with the exception of administrative actions such as travel orders, printing requisitions, etc.) and this office will in turn forward them to the FOIA office so they may respond to current TMI FOIA requests. Each document should be clearly marked on the cover page with the docket number (50-320), the originating individual, the office, subject, and date originated.

Thank you for your cooperation.

A handwritten signature in cursive script, reading "R. M. Scroggins", is positioned above the typed name and title.
