Admiral H. G. Rickover, USN  
Deputy Director  
Division of Naval Reactors  
Department of Energy  
Washington, D.C. 20545

Dear Admiral:

I appreciate your sending us copies of your recent statement before the Subcommittee on Energy Research and Production. I found your straight-forward explanation of Naval Reactors principles, and particularly the section on operator training, most interesting and helpful.

Thank you again.

Sincerely,
