Docket No. 50-322

Dear Rich:

By your letter of May 23, 1979, you requested a copy of a NRC Staff Report mentioned in a recent newspaper article. I have not been able to ascertain the precise report to which that article refers. It appears, however, that the report referenced may be NUREG-0560 entitled "Staff Report on The Generic Assessment of Feedwater Transients in Pressurized Water Reactors Designed by The Babcock & Wilcox Company". A copy of this report is enclosed for your use.

Sincerely,

Richard K. Hoefling
