DOCKET NUMBER  
PROPOSED RULE PR-Misc/Nuclear  
Reg Guide

NRC PUBLIC DOCUMENT ROOM

USNRC  
SIR:

Please accept the following as my comments on Proposed Revision 1 of Regulatory guide 5.57 Shipping and Receiving Control of Strategic Special Nuclear Material SSNM.

There is a fine bit of prose in this document -signifying nothing. Basic lines of responsibility are not clearly drawn. They may be in this document but it is hard to find them.

When is a package the sole responsibility of the Shipper, trucker and receiver?

I don't get it. The package is delivered but the responsibility is not turned over until an assay is done several days later.

Money is not signed for until counted at any bank.

This material is as important as money to a terrorist. At least use the same criteria as banks use on money transfers.

The Reg guide is an open invitation to omissions and commissions. Furthermore, you'll never know what happened if any SSNM walks.

TAKE IT BACK AND DO IT RIGHT.

ACKNOWLEDGED BY SAID. 6-21-79. msh
