This refers to the inspection conducted by J. M. Fuchko of this office on April 9-13, 1979, of activities authorized by NRC Operating License Nos. DPR-38, DPR-47 and DPR-55 at Oconee 1, 2 and 3 and to the discussion of our findings held with J. M. Davis at the conclusion of the inspection.

The area examined during this inspection was your physical protection program under the applicable provisions of Title 10, Code of Federal Regulations, Part 73, "Physical Protection of Plants and Materials." Within this area, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

We have examined actions you have taken with regard to previously identified enforcement matters. These are discussed in the enclosed inspection report.

During the inspection, it was found that certain activities under your license appear to be in noncompliance with NRC requirements. These items and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. This notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit to this office, within 20 days of your receipt of this notice, a written statement or explanation in reply including: (1) corrective steps which have been taken by you and the results achieved; (2) corrective steps which will be taken to avoid further noncompliance; and (3) the date when full compliance will be achieved. Details of activities involving safeguards and security measures are exempt from disclosure in accordance with 10 CFR 2.790(d).
