---

I sent an email to Andrew and his branch chief but have not heard from them. They could be at Seabrook.

Bennett

**Subject:** [External\_Sender] RE: PBAPS SLRA Supplement - Section 4.6

Bennett – Based on our discussion, please let me know if you have any feedback on the proposed alternate approach to provide a supplemental additional information docketed submittal for this material rather than a Supplement to the SLRA, since this material does not belong in the SLRA itself. The proposed supplemental additional information docketed submittal would also alleviate an RAI, and could be docketed in a relatively short time frame.

Thanks.  
Dave Distel

**Subject:** [EXTERNAL] Fw: PBAPS SLRA Supplement - Section 4.6

Dave,

Andrew Prinaris would like for Exelon to provide a supplement to the Peach Bottom application Section 4.6 with the material that you have already provided. Andrew explains below the document he wants you to use and sections he would like supplemented in Section 4.6.

This will alleviate an RAI.

If you have any questions, let me know and I will set up a conference call.

**Subject:** PBAPS SLRA Supplement - Section 4.6

Hello Bennett:

I would appreciate if you could request PBAPS at its earliest opportunity to supplement SLRA Sections 4.6, 4.6.1, and 4.6.2 with their clarification responses made (in their entirety). This potentially would alleviate the need to re-request the same clarifications to be made in form of RAIs.

Specifically from portal bullet: **01-17-19 Prinaris PBAPS TLAAs Prim. Cont. Fatigue Analyses Clarification Questions-Rev 2,**

to supplement **4.6** with responses made to **C4.6-3**  
to supplement **4.6.1** with responses made to **C4.6-1, C4.6-2, C4.6-4**  
to supplement **4.6.2** with responses made to **C4.6-5**

Please let me if you have any questions

Thanks

Andrew
