Tara,

Attached are the two documents associated with the Hospital Hermanos Melendez change of control, with a few edits and responses to your comments in redline. With redline edits accepted, I have no legal objections to the transfer.

Please let me know if I can do anything else to help. I hope you have a great rest of the week!

Christina

Good morning Christina.

Can you update me on the status of your review on the HHM COC? If I am going to make the metric, I will need to issue the license by 4:00 tomorrow.

Thanks in advance,
Tara

NMSS/RGNI MATERIALS-002

Hi Tara,

Attached are the letter and SE for the direct change of control, with comments and edits in redline. I highlighted the comments that need your attention (i.e., questions for you). I'm available at 205-567-8653 (telework) if you have any questions about my edits or comments. I recently worked with Dennis Lawyer on the Cytex/Solvay change of control, so I used my notes from those documents to ensure consistency.

As soon as I hear back from you about the highlighted comments, I'll proceed with the legal review.

I hope you have a nice evening!
Christina

Subject: Transfer of Control for Hospital Hermanos Melendez- Please Review for NLO

Good Morning,

I have been assigned an action for a direct transfer of control for Hospital Hermanos Melendez. The action was posted to the NRC website on May 8, 2019, and removed on June 7, 2019. I have attached copies of my draft letter and Safety Evaluation Report for your No Legal Objection. The transfer became effective on December 26, 2018. If at all possible, may I have your NLO by the COB August 21, 2019.

The direct transfer of control is described in Agency Documents Access and Management System (ADAMS) package accession number ML19063B413. The ADAMS package consists of the following agency documents: letter dated February 9, 2019, request for additional information dated June 28, 2019 (ML1), and letter dated July 11, 2019. I have attached the July 11, 2019 letter because at this time it is not in ADAMS.

Thank you in advance for your help, and please let me know if you have any questions or concerns.

Kind regards,
Tara Weidner, Senior Health Physicist
USNRC, Region I
