RECEIVED

Mr. Richard E. Cunningham
Director, Division of Fuel
Cycle & Material Safety
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Cunningham:

Attached is our response to your February 11, 1981 letter requesting radiological contingency planning information relative to University NRC Licenses 22-00187-49.

As recommended by Mr. R. G. Page of your staff, the University is requesting an amendment of the above mentioned licenses, which will assure that the University maintains radioisotope possession in any one building to well below levels which require a contingency plan.

Sincerely,

Glenn W. Smith
