DEPARTMENT OF BIOLOGY

April 6, 1981

Mr. Victor Stello, Jr., Director  
Office of Inspection and Enforcement  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Stello:

Enclosed are overdue reports of personnel monitoring for the years 1978, 1979 and 1980 from Wesleyan University (Lic.#06-00483-08, exp. 11-30-82). The fault is mine; I was not aware that reports were required even when, as in this case, personnel monitoring was not being done (tracer amounts of  $^3\text{H}$  and  $^{14}\text{C}$ ).

Plans to use  $^{32}\text{P}$  and  $^{125}\text{I}$  in the future have led us to start a film badge system this year a report will be submitted early in 1982 on the 1981 program.

I regret my laxity in this matter, and hope it has not complicated your problems unduly.

Sincerely,

*Vincent W. Cochrane*
