Fuel Facility and Material Safety Branch

Attention: Jack E. Whitten

Dear Sir:

As a corrective step to avoid violations from recurring, we keep a Ledger with the Due Date for leak test, inventory and personnel monitoring in it. We posted all information on bulletin board and marked it on our calendar. We also, made arrangements with Oklahoma Testing Laboratory to check our Ledger and bulletin board every 90 days for a additional check.

Date: April 2, 1981
