Dear Ms Hembley:

This will confirm our conversation by phone on May 31, 1979 regarding our Application No. XSNM-01456.

Part 8 (a) should be changed to reflect two units with elemental weight shown as 3832.56 Mg.

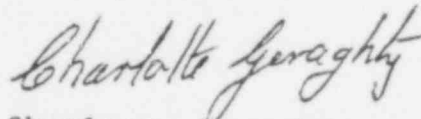

Part 8 (b) should be changed to reflect two units with Isotopic weight as 3564.28 Mg total and 3832.56 Mg total uranium.

The End Use Statement should show 3832.56 Mg instead of 2.

We greatly appreciate your help in clarifying this matter.

Very truly yours,

REUTER-STOKES, INC.
