Branch  
Mr. J. Whitc, Radiation Specialist, Radiation Support Section,  
FF&MS Branch  
Mr. J. Devlin, Chief, Security and Investigation Section, Safeguards  
Branch  
Dr. C. Gallina, Investigation Specialist, Security and Investigation  
Section, Safeguards Branch  
Mr. E. Brunner, Chief, Reactor Operations and Nuclear Support  
Branch (RO&NS)  
Mr. R. Keimig, Chief, Reactor Projects Section No. 1, RO&NS Branch  
Mr. W. Lazarus, Reactor Inspector, RO&NS Branch

### 2. Agenda

Region I representatives reviewed the findings of the most recent inspection (Number 79-06) in the area of radiation protection, and indicated that the nature and number of items of noncompliance indicated a need for increased attention to management of the radiation protection program.

Licensee representatives outlined additions and changes in the following six segments of the radiation protection program: staffing and organization; training; procedures; equipment; contractor selection; and station layout. These changes are designed to deal effectively with the problems identified during the inspection. In addition, the licensee's evaluation of its health physics program as stated in the letter from Mr. W. Council to Mr. B. Grier, dated February 16, 1979, will be completed by April 7, 1979.
