DOCKET NUMBER PR-9 (44 FR 22746)
PROMISED RULE

May 16, 1979

Secretary of the Commission
U. S. NUCLEAR REGULATORY COMMISSION
Washington, D. C. 20555

ATTENTION: Docketing and Service Branch

Dear Sir:

The revision of 10 CFR Part 9 published in the Federal Register April 17, 1979 and requesting specific comments has been reviewed by our office. The questions and answers are as follows:

Question: Is it written in a way which can be readily understood by the general public?

Answer: It is written in a more easily understandable manner in that each section begins with a simple, clear, concise question which is dealt with immediately following. These questions seem to be written just as a reader would be asking them.

Question: Does the organization and format make it possible for the public to determine how to make a Freedom of Information Act request and what the procedures are for an NRC response?

Answer: It is easily determined by looking through the outline of Part 9 contents to section 9.6 and 9.8. The answers in those sections appear complete and short.

Question: Are there specific changes in style, organization, format or substance which would make the revised rule, as proposed, easier to understand?

Answer: The changes reflected in this revision are much easier to understand. Further revision in style, organization and format do not appear necessary.

May 16, 1979

Question: Are there other sections or parts of NRC's regulations which appear particularly difficult to understand or ambiguous? If so, please identify the specific sections or parts, and indicate how they could be clarified.

Answer: All of 10 CFR could be rewritten in the same manner as the revision for those who must comply with them, as well as other Titles of CFR.

Thank you for the opportunity to comment.

Sincerely,

Pam Newman
Administrative Assistant
