Dear Mr. Johnson:

During our phone conversation today, you asked for a report referred to by Dr. Roger J. Mattson in his testimony before the President's Commission last Friday, June 1, 1979, concerning the condition of the Three Mile Island-2 core. I have identified that document as NUREG-0557, Evaluation of Long-Term Post-Accident Core Cooling of Three Mile Island Unit 2. Attached is a copy of that document.

I am sending this to you by courier today. Let me know if I can be of further help.

Sincerely,

  
James Fitzgerald
