Dear Sir,

In reference to the above I think the membership of the proposed Radiation Safety Committee should include a member of the Safety and Security Dept. They are involved in the hospital Safety and Security and as such have a role in the Safety of Radioactive Materials. I think the JCAH requires a Radiation Committee which should include a member of the Safety and Security Dept. In order not to duplicate the efforts, the inclusion of a member from the Safety and Security dept. would meet both requirements.

Thank You,

Charles Narayanan
